

Former Mayor of Baltimore, Governor of Maryland and Comptroller of Maryland William Donald Schaefer and Dr. Bob relive old times after their discussion of Biodiesel and receiving his **On the Clean Road Again** inscribed by one of his favorite songwriters and performers.

"I got the biggest kick out of the bandana. I had the whole office in stitches the rest of the day."

Senator Ben Cardin receives **On the Clean Road Again from** Dr. Bob.

"We are living in a critical time in our nation's history. We face an economic crisis, an energy security crisis, and a global climate crisis. The Recovery Act has already begun to put Americans to work undertaking the essential task of reducing our use of energy and our dependence on foreign oil, which will strengthen our economy and security. It will also boost investments in clean renewable energy generation from the wind, sun, and other clean sources," said Senator Cardin. "Funds from programs

like the Clean Cities Alternative Fuel and Advanced Technology Vehicles Pilot Program will allow us to develop new sectors in our economy that will provide high-paying jobs here in America and technologies and services we can export aboard." Senator Cardin's full Earth Day statement is available at cardin.senate.gov.

#### GOVERNOR WILLIAM DONALD SCHAEFER

SERVING THE PEOPLE OF MARYLAND FOR OVER 50 YEARS

Dear Dr. Bob.

Just wanted to extend my thanks to you for taking the time to present my book from Willie Nelson. I got the biggest kick out of the bandana! I had the whole office in stitches the rest of the day. Your gifts and time are truly appreciated, I enjoyed our visit and lunch. Hopefully your efforts with Bio Diesel will soon pay off.

Best wishes to you for a Happy New Year. Please forward my thanks to Willie if you could.

Fondly,

Senator Barbara Mikulski and Dr Bob meet to discuss biodiesel.

A statement from Sen. Mikulski on clean energy technology: "I voted for the American Recovery and Reinvestments Act (P.L. 111-5) which was signed into law by President Obama on February 2, 2009. The ARRA included over \$41 billion to improve the way our country uses, produces and conserves energy. I supported this legislation because I believe in a sensible energy plan that promotes alternative energy and energy efficiency and reduces global warming."

### **THANK YOU WILLIE NELSON!**

## Getting the Biodiesel Message to Marylanders...

Read Willie Nelson's On the Clean Road Again.

As Willie says: "I have always believed in putting your money where your mouth is, and in this case, my money's on biodiesel.

I wanted to let folks know that I wouldn't ask them to believe in something that I wouldn't invest in myself."

# PROMOTING BIODIESEL TO MARYLAND GOVERNMENT

Willie Nelson graciously signed a number of his books including six to Maryland's government officials. Over the following months we presented those inscribed copies to our county and state elected officials and talked with them about biodiesel in Maryland.

Baltimore County Executive Jim Smith receives On the Clean Road Again.

**Governor Martin O' Malley** is presented with **On the Clean Road Again** before he performs with O'Malley's March.

**U.S. Congressman John Sarbanes** meets with Dr. Bob on environmental issues and is presented with **On the Clean Road Again**.
